Management: Concentration in Marketing

undergraduate program

Management: Concentration in Marketing

48 credits
Bachelor of Science

The Management major with a Marketing concentration provides students with a well-rounded education in the role that marketing has in a firm, its industries, and the economy. With these concentration courses, students learn how to apply the concepts needed to develop a rationale from a marketing perspective that guides an organization's decisions and the activities of a firm.

Employment in Sales and Marketing:

- *Commercial banking
- *Financial services
- *Corporate marketing
- *Industrial products & services
- *Consumer product & services
- *Real estate
- *Universities & higher education institutions
- *Non-profit institutions
